Project Summary:

Install new low energy comfort
air conditioning system for entire house

Description of Proposed Work:

Install new central air conditioning system for entire house. Install insulated metal trunks in basement, with high wall risers for first floor registers. All registers supplied in basic white. Equipment to be a new 2-3 ton hi-speed blower HV-B30H, per attached data information. System has a SEER of 13, and is rated at 34000 Btuh.

Design work to be done to meet requirements of Manual J8 and Manual D. System guaranteed to meet 75 degrees on design day (98 degrees, 78% RH with typical internal occupancy.)

We propose herby to furnish material and labor - complete in accordance with above specifications, for the sum of **nine thousand, four hundred and seven dollars \$9,407.00.**

Payment to be made as follows:

\$4000 on acceptance and the balance of **\$5,407** on startup.

All material is guaranteed to be as specified. All work to be completed in a workman-like manner according to standard practices. Any alteration or deviation from above specifications involving extra costs will be executed only upon written orders, and will become an extra charge over and above the estimate. All agreements contingent upon strikes, accidents or delays beyond our control. Owner to carry fire, tornado and other insurance. Our workers are fully covered by Workmen's Compensation Insurance.
